### Armenian Volunteer Corps (AVC)

#### Einsatzstellenbeschreibung

Founded in 2000, the Armenian Volunteer Corps (AVC) is Armenia's leading volunteer placement organization. AVC invites individuals 21 years of age and older, of all backgrounds from across the globe, to volunteer in Armenia for two weeks to one year. In addition to placements, AVC provides all logistical support from airport-pick-up, to host-family living arrangements, Armenian language classes, and more, in partnership with its sister organization Birthright Armenia. To date over 670 volunteer from 47 countries have served in hundreds of organizations throughout Armenia.

#### Tätigkeit in der Einsatzstelle

AVC operates year round and as such there are no fixed application deadlines. Applications should preferably be submitted at least one month prior to the volunteer's intended arrival date, allotting enough time for the AVC application committee to process and review the application and the AVC staff to make appropriate arrangements for their service in Armenia. AVC tries to match both the skills, experiences and interests of our volunteers to the needs of the country. AVC has over 700 placement partners in Yerevan and throughout Armenia in all sectors ranging from Anthropology and Architecture to Youth work and Zoology.

#### Unterkunft und Verpflegung

AVC volunteers generally stay with one of our many host-families. The volunteer will have a private single room and breakfast daily. Most of our host families have TV; and the volunteer may use the kitchen. All our host-families are non-smoking.

#### Begleitung

Upon approval, the volunteer will receive a handbook filled with important information about Armenia, cultural differences, and practical tips to help make their stay as successful as possible.

The volunteer will have orientation on the first day – about Armenia and life in Armenia as a volunteer, cultural differences, host family life, volunteer service, available support, other optional activities that are available such as weekly excursions, forums, social gatherings and group community service.

Every in-country volunteer is encouraged to take our offered Armenian languages classes, twice a week, for free.

#### Besonderheiten

Neue Einsatzstelle. Viele Einsatzmöglichkeiten nach Neigung der Freiwilligen. Erfahrenes Mentoring im Land durch Aufnahmeorganisation.

#### Förderprogramm

weltwärts
